

專業數控製造 通用型及車銑床專用數控

Common type & Lathe and Mill CNC Controller

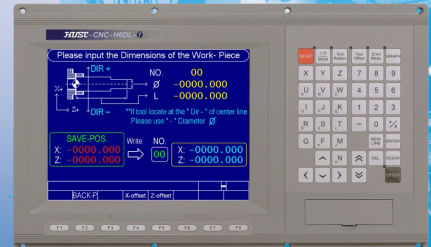

特色：

- 1、控制器畫面規劃 <方便> 且 <簡單>
The controller screen planning <convenient> and <Simple>
- 2、Hcon、Screen-Editor、PLC-Edit操作介面 <簡單> 易學
Hcon、Screen-Editor、PLC-Edit User interface <simple> to learn
- 3、對話式操作，大幅縮短教育訓練的時間
Interactive Program Edit, shorten training time
- 4、專屬手持盒+控制器操作
Manual control box operation
- 5、客戶可自行自訂特殊
G-code 靈活性高
User make special
G-code, high flexibility
- 6、各軸均可單獨設定開迴路或閉迴路控制
Each axis can be set individually for open-loop or closed-loop control.

H6DS-T

簡易型車床
Lathe for convenient type

H6DL-T

車床 / Lathe

銑床 / Mill

H6DL-M

H6DSMCB+HMCB

手持盒式數控

H4DS+HMI

特色 (Features)

操作方便(直覺化設計)簡單操作, 可配合使用者修改操作介面
Easy operation (intuitive operation)
It can be used with the user to modify the user interface.

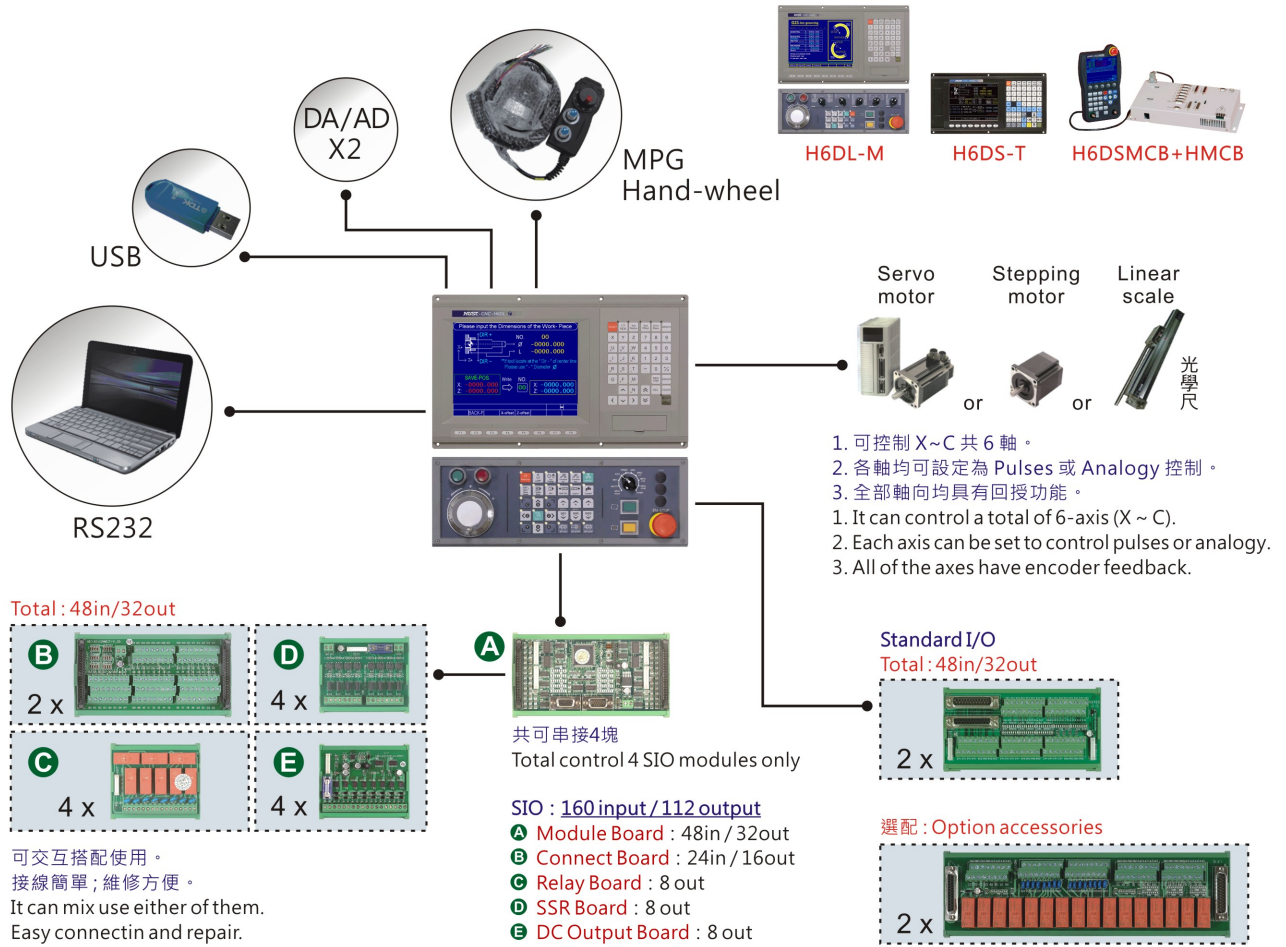

自動流程採G-code順序控制, 使用者可自行修改其控制流程
(必要時可外接鍵盤或滑鼠)
Program process use G-code sequence control, users can modify their own control flow. (If necessary, an external keyboard or mouse)

性價比優於PLC (價格低於相同規格PLC系統)
Cost-effective than external PLC.
(Price is lower than the same specification of external PLC)

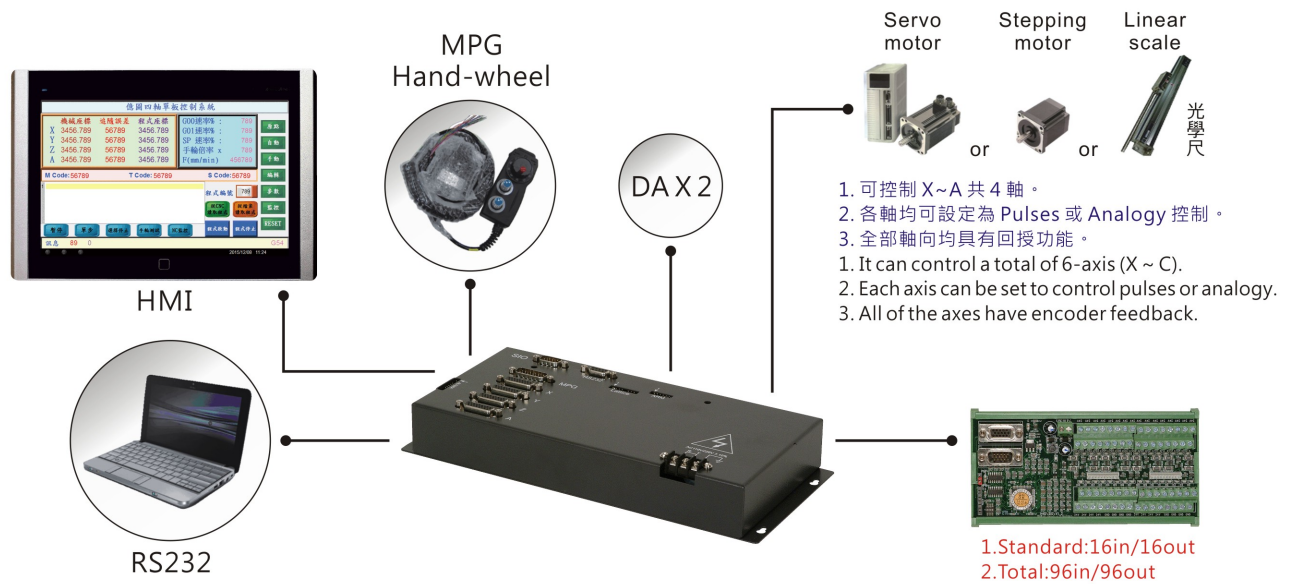

具有手輪及簡易教導功能
MPG hand-wheel operation & Simple Teach function.

模組化IO / 軸向獨立接頭 / 配線維修方便
Modular IO / Independent axial connector / Easy wiring and maintenance.
