

NOISE ABSORBER NA-B150

Body: 63x147x26mm; DC: 12-14.6V special
 It applies to more than 60,000 kilometers non-new car,
 line speed more than 60km daily
 longer drive cars & small trucks
 Price: US\$ 350-380 / **special price: US\$ 180**

U.S.A. Patent

Including patents:

USA patent number: US 7,301,747 B2

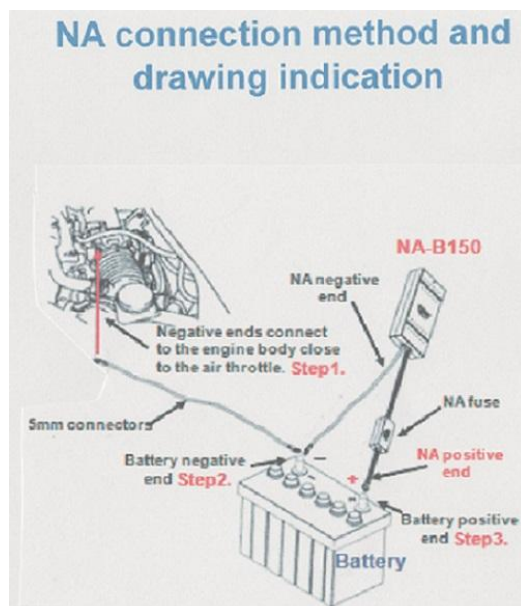

JAPAN patent number: 4058061

Singapore patent number: 200503709-8

TAIWAN patent number: M277659

EPC patent number: 04014883.5

EPC Patent

Under unchanged the safety Construction of a vehicle

1. Save fuel, increase horse power and torque.
2. Reduce pollution---Air pollution, Noise pollution.
3. Reduce magnetic interference (EMI).
4. Increase efficiency of vehicles.
5. Extend parts life time of vehicles, save cost on repairing.
6. Save cost of development and increase EPA valuon engines

Made in Taiwan
